Life is a Moving Experience™

SE Model shown

Toyota Power XT

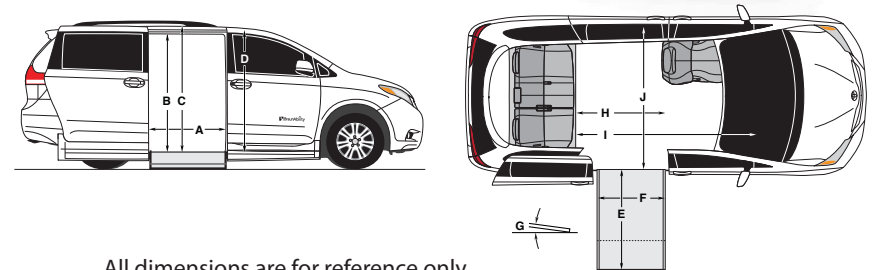

Built on the Toyota Sienna chassis, the Power XT side-entry conversion offers the same accessibility and convenience of any BraunAbility vehicle, all in a more streamlined package. The redesign of this popular chassis includes a sleek exterior and impressive interior options. The van's automatic kneeling system lowers the rear suspension and allows for a gentle ramp slope and an impressive 56" of sliding door height. The lightweight aluminum side-entry ramp conveniently folds out for easy wheelchair or scooter access.

The latest side-entry Toyota Power XT is a striking upgrade of an already first-class van. Check it out at a BraunAbility dealer near you!

Rear Cargo Area

The spare tire is now stored below the rear cargo area. Third row roll-and-tumble seats fold forward to offer additional cargo space when needed.

All dimensions are for reference only.

Door Opening Usable Width (Slide Door)	A	33"
Door Opening Usable Height (Slide Door)	B	56"
Interior Height at Center of Van*	C	60"
